

To Whom It May Concern, I am an avid listener of K-Love radio, as is my entire household. We commonly recommend the channel to friends as something more encouraging and uplifting to listen to in place of the normal menu on our radio waves. Our area here in Hampton Roads is beginning to be know for "heavy traffic". One must find a way to deal with it on a day to day basis. Having my car radio tuned into K-Love has become my method of relaxing while in the mist of the anxiety of bumper to bumper, stop and go traffic. If K-Love were forced off the air because of the proposed rule changes regarding FM translators you would be ignoring a large listening audience in this area. In my opinion I don't think any other broadcast by the new LPFM stations could compete with what K-Love offers its audience. The uplifting teaching and music inspires the best of each person listening, and in effect you become a more positive person to influence for good the lives of others. This is definetly in the Public's best interest, and it's effects reach out into the community in a far reaching way. In closing I strongly encourage that you not allow the LPFM stations to take priority over the current FM translator service. There still is VALUE in these national and regional services which the station "K-Love" transmits.  
Don't throw the "Baby out with the Bathwater"!  
Sincerely, G.C. Stilwell
